Not illustrated. 1915 Excerpt: . . . which flows a small stream when the pump is not running; temperature 99 F. at pump discharge. At 300 to 500 feet from this well, are several mud springs which have the following temperatures: 128, 134, 112 F. There are accommodations for thirty in tents. Napa Rock (see Priests Soda). Napa Soda Springs. Familiarly designated for many years Jacksons Napa Soda, this is one of the oldest and best known springs of California, both as a resort and from its bottled water. This water has been on the market since 1860, the plant at the present time having a capacity of 1000 dozen splits per day. Contrary to the usual practice, splits (3 per quart) are used here instead of quart, bottles (5 per gallon). The bottles have Napa Soda, etc. , blown in them, so that it is not necessary to use any labels. The...
