The jobbers came to the market this fall prepared to pay higher prices, but the manufacturers, instead of mutually agreeing to an advance which they knew to be inevitable in the near future, were afraid of each other, and endeavored to save the advance at the expense of the quality of the goods. The fact is, furs have been so low for the past two years that buyers have been getting letter hats than the price warranted, and the cheapening of mixtures and trimmings only brings the hats to a fair value for the money. Everybody knows that hats that have been sold for 18. 00 were well worth 22. 50, but the low price of stock has made it possible to use fur that never ought to have gone into low grades. As an instance of the great increase in the price of fur, we will mention that of mottled coney, which is largely used in the manufacture of cheap fur hats, which has gone up from 75 cents to 1. 25 per pound for the lowest grade, an advance of 07 per cent. The quicker both buyer and seller grasp the situation in an intelligent manner, the better it will be for all concerned. E. A.
