Brand New Book ***** Print on Demand *****.Influence of some scientists, philosophers on their followers were so huge, that they repeat and repeat ideas of famous scientists till time, when these ideas became as dogmas. Dogma is a principle or set of principles laid down by an authority as incontrovertibly true. It serves as part of the primary basis of an ideology or belief system, and it cannot be changed or discarded without affecting the very system s paradigm, or the ideology itself. Earth is the center of universe or sun is the center of solar systems are examples of two basic principles, which changed understanding of the world in two opposite directions. Marx, Keynes are two scientists, which till now influence most economists by their main dogmas. We have the same in science of climate change, where ideas that greenhouse gases influence climate change, or that sun activities are main reason for that are example of dogmas, which so supported by mass media, that all Governments in the world are ready to follow main mistakes in sciences of economy and climate change. If we will not overcome these dogmas mankind will be forced by their followers in very dangerous deadly wrong directions, which will be responsible as for most economical problems as for real changes in climate, which will influence life of 500,000.000 people in the world. We must stop using outdated schools of economy, we must stop deadly wrong theories of scientists of climate change and their opponents. Discussion of these mistakes in economy and climate change could bring solutions, which will change economy in the world in the best way. Please, look at these dogmas in economy and climate change differently...
