FEEDING THE TEN BILLION: PLANTS AND POPULATION GROWTH

Cambridge University Press. Paperback. Book Condition: New. Paperback. 264 pages. Dimensions: 8.8in. x 6.0in. x 0.8in. At the current rate of increase, the world's population is likely to reach ten billion by the middle of the twenty-first century. What will be the challenges posed by feeding this population and how can they be addressed? Written to mark the 200th anniversary of the publication of Malthus' seminal *Essay on the Principle of Population*, this fascinating book looks at the intimate links between...

Reviews

This book might be worth a read, and superior to other. Of course, it really is engaging, still an interesting and amazing literature. It is extremely difficult to leave it before concluding, once you begin to read the book.
